SmartScan Stand-alone Sensor

Enables control of multiple DALI luminaires

Stand-alone sensor to control up to 10 DALI luminaires from one sensor. Multiple sensors can be linked using SmartScan wireless Motionline technology.

- Polycarbonate body finished white (RAL9016)

- Control the colour temperature of ColourControl luminaires (catalogue number suffixed CC)

- DALI/colour temperature control for up to 10 luminaires (assuming one DALI driver per luminaire)

- Can be used stand-alone without connected luminaires to act as a wireless booster/range extender and/or as a slave PIR to extend detection coverage

- Class II device. Earth connection provided for looping only

- Terminals suitable for 1.5 mm² looped cable
- Suitable for mounting heights up to 8 m

Up to IP65   SMARTSCAN
