

## Master colour temperature control and web interface for ColourActive luminaires

Transmits colour temperature control commands from the SmartScan web server.

Applications: For use on all ColourActive schemes.

- Polycarbonate body finished white (RAL9016), silicone keypad
- Central control for ColourActive luminaires
- Communicates with the SmartScan website using GSM mobile telecommunications
- Wireless control of incremental shifts in colour temperature governed by settings on the SmartScan website

Notes: A ColourActive Gateway only provides colour temperature control. If energy monitoring and status information feedback is required an additional SmartScan Gateway is required.
